## Key Skills

Java

Communication Skills

Leadership Skills

Python

HTML

CSS

Javascript

UI UX Development

## Certification

- Full Stack Web Development
- Digilabs HTML Basic
- All IBM Certifications
- Udemy Python course, HTML Essentials

## Personal Information

City Tiruchirapalli

Country India

## Hobbies

exploring new ideas, reading, making projects

## Profile Summary

I am a motivated third-year Computer Science Engineering student with strong problem-solving skills and a passion for designing complex systems. Proficient in Java and developing expertise in Python, I am expanding my skill set with advanced AI technologies. With hands-on hardware project experience, I bring versatility across software and hardware domains. I thrive in tackling diverse challenges, contributing to all aspects of a project, and possess leadership qualities that foster collaboration. Academically strong, I remain focused, responsible, and committed to delivering results with diligence and integrity.

## Education

2026, Full-time

B.Tech/B.E., Computers  
Kongunadu College of Engineering and Technology, Tiruchirapalli ,  
9.4/10

2022

12th, Tamil Nadu, English, 85.11%

2020

10th, Tamil Nadu, English, 97.6%

## Internship

15 Days

CORE PYTHON

LUMILEARN

During the internship, I focused on understanding the core principles of Python programming. I explored Python's basic concepts and tools, including libraries for data handling, simple web development, and automation. I also gained familiarity with using Python for problem-solving and building beginner-level applications. Additionally, I researched how Python can be applied to create user-friendly, scalable, and efficient solutions, considering its impact on real-world applications.

14 Days

FULL STACK WEB DEVELOPMENT

ESOFT IT SOLUTIONS

## Languages

Tamil, English

## Extra curricular

### Music Composition and Instrumentation

I have a strong background in music, including playing instruments and composing original pieces. While I haven't been actively composing lately, I look forward to pursuing it more in the future.

### Dance Performance

### Visual Arts and Illustration

During the internship, I gained expertise in web Technologies. I mastered HTML, CSS, JavaScript, and PHP for front-end and server-side development. I learned database management with MySQL and simulated server environments with XAMPP. I built and customized websites using WordPress and explored digital marketing strategies with Google Ads. The program equipped me with technical skills and strategic knowledge for a versatile career in the digital field.

3 Months

FULL STACK WEB DEVELOPMENT

SmartED

Completed an internship at SmartEd in Full Stack Web Development, where I gained hands-on experience in building and styling web applications using HTML, CSS, and Bootstrap for responsive design. I also explored JavaScript and React for front-end development, along with gaining a foundational understanding of server-side technologies to support full stack development. This experience enhanced my ability to create efficient, user-friendly web applications.

## Projects

2 Weeks

SIH Intercollege Hackathon

Gun Shot Detection System

3 Months

Smart Plant Communicator

Miniproject (Ongoing)
